Quality Policy

It is the policy of Jackie McMahon Construction & Cost Consultancy Ltd (JMCCC) to provide products and services of the highest quality that comply with customers specified requirements and ensure customer satisfaction. JMMCC understand that customer satisfaction is essential to continued business growth and profitability. As such the company is committed to the on-going maintenance and improvement of our Quality Management System. Our Quality Management System aims to ensure:

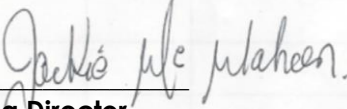

- Consistency of approach, production and standard of end product
- Compliance with relevant standards and legislation
- Fulfilment of clients and customers requirements

The effectiveness of the Quality Management System is based on the commitment and full participation of all personnel. The management ensures all staff are adequately trained and all procedures and activities within the company are documented in accordance with the quality system. Regular monitoring and reviews of the Quality Management System guarantees its efficiency.

The company continuously works towards improving existing products and services as well as developing new areas of expertise in order to maintain customer satisfaction and attract new clients.

This Policy will also promote the control of suppliers and subcontractors to ensure their compliance with our standards.

The directors of JMMCC have planned and established measurable objectives based on the Quality Policy for the ongoing development of the company and its clients. These objectives are regularly reviewed and measured by management.
